# SPA FAQS

## Frequently Asked Questions

Flexible Booking hours 10am-9pm

### What should I expect during my treatment?

Your therapist will arrive with a professional massage table, linens, and all required products. Each session begins with a brief consultation to customize your treatment based on your comfort and wellness needs.

### How should I prepare the room?

You don't need to do much – we'll take care of everything. To help your therapist set up comfortably, please ensure:

- ✓ A small clear space is available for the massage table (About the width of one side of the bed is perfect.)
- ✓ Access to a sink and a little counter space. This is just for our hot towel cabby and cleansing supplies. That's it – no other preparation is required. Your therapist will handle all additional setup upon arrival.

### Do you offer customized services?

Absolutely. Your therapist can tailor pressure, focus areas, aromatherapy, and enhancements to your personal preference. Your comfort is our priority – every treatment is personalized to you.

### What should I wear?

If your room provides a robe, you're welcome to wear it before your treatment. You may also enjoy a warm shower or hot tub soak beforehand to help relax your muscles.

For the session itself, please undress to your personal comfort level. You will be professionally draped at all times, with only the area being treated uncovered. Your comfort and privacy are always our priority.

### What is your cancellation policy?

We kindly ask for 24 hours' notice to cancel or reschedule your appointment. This allows us to accommodate other guests waiting for service.

Cancellations made with less than 24 hours' notice may be subject to a 50% service fee. Thank you for your understanding.

### Is gratuity included?

Gratuities are not included in the service price. They are never expected, but always appreciated if you feel your therapist provided an exceptional experience.

#### Enhancements

Add Soothing Eye Mask or Warm Stones to any treatment • \$25
